Control Products Formulated For The Abatement Professional

CONTROL Chemical Mastic Removers

CONTROL Chemical Mastic Removers are specifically formulated to liquefy the toughest cured floor tile adhesives on asbestos abatement projects while keeping your workers and building occupants safe and comfortable. Whatever your requirement; from balancing cost with solvency and flash point or low VOC, or low to no odor, there is a Control Mastic Remover for your application. All mastic remover products are available in 5 gallon cans or 55 gallon drums.

CONTROL Soy Mastic Remover is a soybean based solvent for the safe, environmentally responsible and low odor removal of all types of adhesives and mastics.

Zero VOCs. 201° flash. KB value = 59

CONTROL Green Mastic Remover is the first mastic remover formulated to meet California's strict new VOC regulations. This very low odor mastic remover also performs very well.

No VOCs. 175° flash. KB value = 32

CONTROL V-Low Mastic Remover offers the best of all features, low odor, high solvency and an economical cost. V-Low dissolves old floor tile adhesive without strong chemical odors. The V-Low formula incorporates the latest technology in solvents that offer effective removal and clean up. V-Low is a versatile professional contractor grade mastic remover.

141° flash. KB value = 32

CONTROL Low Odor Mastic Remover is our most popular solvent for dissolving tough asphaltic floor mastics. The low odor blend of aliphatic and aromatic hydrocarbons with built-in penetrants and surfactants ensures quick-action and easy clean-up.

141° flash. KB value = 37

CONTROL Zero Mastic Remover is a virtually odorless solvent system for dissolving asphaltic floor tile mastics and adhesives. This product is a blend of organic hydrocarbons refined for reduced odor and lower VOCs. It is perfect for areas where chemical odors could cause a concern. This formula has a high penetrant content which softens aged and cured mastic adhesives.

160° flash. KB value = 25

CONTROL Citrus Blend Mastic Remover is a blend of citrus solvents and organic hydrocarbons that quickly dissolves aged asphaltic floor tile adhesives. Offers fast solvency and a mild odor of citrus at an economical price. Emulsifiers and penetrants allow fast action and easy clean-up with water and detergent.

137° flash. KB value = 42

CONTROL Pure Citrus Mastic Remover all natural citrus solvent is our fastest acting and most powerful mastic remover. Pure Citrus quickly liquefies the most difficult asphaltic adhesives. This citrus derived solvent is non-toxic and biodegrades quickly. Built-in surfactants aid in clean-up with water and detergent.

125° flash. KB value = 67
